

New Release

Free Standing Pool Range

You can now build the pool of your dreams in backyards which previously would have been deemed cost prohibited or impractical. Our Free Standing Pool Range feature designs from across the range of Swimming Pools, Plunge Pools, Lap Pools and Spas.

The specially engineered pool shells allow you the flexibility to work with our expert pool builders to design a backyard that suits both your budget and lifestyle.

The Free Standing Range provides a wonderful alternative to building large and often expensive retaining walls by having your swimming pool raised out of existing ground level, meaning the process is much quicker and you will be enjoying your pool sooner than the alternative.

Don't compromise your outdoor designer pool with an unsightly alternative, with a Narellan Pools Free Standing Pool you can enjoy a seamless design which will provide you with a wonderful poolside lifestyle.
